JESMOND PUBLIC SCHOOL INTERNET USER AGREEMENT

As part of the process of using this resource, we feel it is important for parents:

- to acknowledge that their children need to use the internet at school to enhance learning as part of the process of moving into an increasingly technological world;
- to understand that a code of behaviour must be understood and followed by all children using the internet; and
- know that it is occasionally possible, despite teachers providing careful supervision, for students to inadvertently come across inappropriate material and that through teacher intervention, be guided towards coping with such sites appropriately.

In acknowledging these facts, it is also important that parents give their permission for their children to use the internet as part of their learning.

Parents are therefore requested to sign and return the following permission note.

I acknowledge the above situation, and give permission for my son/daughter, ______ of class _________ to use the internet at school as part of his/her education.

STUDENT AGREEMENT

It is also important for students acknowledge the trust and responsibility given them as a consequence of using the internet. They are therefore requested to complete the following agreement.

I agree to the following conditions as a requirement for using the internet at school.

I will:

1. report to a teacher any material discovered that is generally recognised as being not appropriate for viewing;
2. not join any group or organization advertising itself on the internet;
3. not reveal names, home addresses or phone numbers;
4. only use the internet with the direct permission of a teacher;
5. check with a teacher before printing;
6. use the internet for resource material only and not print sections for research material;
7. follow all requirements associated with the internet and realise that failure to do so will result in permission to use the internet being withdrawn.
